### AnnuiCare® Advantages

AnnuiCare® is a tax-deferred annuity that is intended to be Tax Qualified Long-Term Care coverage. The Long-Term Care coverage is equal to three times the value of your annuity. The Long-Term Care premiums are conveniently paid from the annuity's value (Accumulated Value less any applicable surrender charges).

### How AnnuiCare® Works

1. You establish a tax-deferred annuity issued by Guaranty Income Life Insurance Company (GILICO).
2. A portion of your annuity value is used to pay for the Long-Term Care rider. **There are no out-of-pocket premiums.**
3. Benefits begin after a 90-day Deductible Period if you are prescribed a Plan of Care and certified by a Licensed Health Care Practitioner as:
  - ✓ Being unable to perform two of the six Activities of Daily Living: bathing, continence, dressing, eating, toileting and transferring; **or**
  - ✓ Having a cognitive impairment requiring substantial supervision, such as Alzheimer's Disease.

*Care Planning Benefit, Caregiving Training Benefit and Respite Care Benefit not subject to a 90-day Deductible Period.*
4. Your Long-Term Care expenses will be reimbursed up to the Daily Maximum benefit. These reimbursements will be paid from your annuity value, penalty free, for at least the first two years. Thereafter, for no less than four years, benefits will be reimbursed from the AnnuiCare® rider, providing six years or more of Long-Term Care benefits.
5. Your AnnuiCare® policy will reimburse Long-Term Care expenses up to the total of your Daily Maximum benefit for:
 

✓ Home Health Care	✓ Nursing Home Care	✓ Homemaker Services
✓ Assisted Living Facility Care	✓ Personal Care Services	✓ Hospice Services
✓ Alternative Care Services	✓ Respite Care	✓ Adult Day Care (50% of Daily Maximum)

<sup>1</sup> Effective 1/1/2010, subject to the per diem maximum set by law, all benefit payments are tax free, and LTC premiums are paid with pre-tax dollars from your annuity. The premiums will reduce your cost basis which may result in additional taxes if you surrender or make withdrawals from your AnnuiCare® policy. GILICO does not give tax advice. Please consult your tax advisor for additional information.

**WITHDRAWAL CHARGES:** The value may be reduced by Withdrawal Charges. The maximum Withdrawal Charge is a percentage of the **premium** amount withdrawn as follows:

Contract Year:	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>	<b>7</b>	<b>8</b>	<b>9</b>	<b>10</b>	<b>11+</b>
<b>AnnuiCare® 7</b>	8%	7%	6%	5%	5%	4%	3%	0%			
<b>AnnuiCare® 10</b>	9%	8%	7%	6%	5%	5%	4%	3%	2%	1%	0%

**THE LONG-TERM CARE BENEFIT IS DETERMINED BY YOUR ANNUITY VALUE.**

The daily average cost of care in your area should determine the annuity amount you choose.

<b>Initial Annuity Value</b>	<b>Total Long-Term Care Benefit</b>	<b>Daily Maximum Benefit</b>
<b>\$100,000</b>	<b>\$300,000</b>	<b>\$136.99</b>
<b>\$150,000</b>	<b>\$450,000</b>	<b>\$205.48</b>

**AS YOUR ANNUITY VALUE GROWS, YOUR LONG-TERM CARE BENEFIT ALSO GROWS.**

Below is an example of a 65 year old who purchases a \$100,000 Annuicare® plan. The chart illustrates how the annuity value will grow based on the net interest credited. The minimum interest rate for the life of the policy is established on the policy date between 1% and 3% depending on U.S. Treasury rates as explained in the policy. As the annuity value grows, the Daily Maximum benefit grows at the same rate. This helps you meet the rising cost of Long-Term Care expenses. Withdrawals reduce the annuity value and benefit amounts proportionately.

<b>End of Contract Year</b>	<b>Annuity Value<sup>2</sup></b>	<b>Daily Maximum Benefit</b>
<b>10</b>	<b>\$122,408</b>	<b>\$167.68</b>
<b>20</b>	<b>\$149,721</b>	<b>\$205.10</b>

<sup>2</sup> This illustration assumes no withdrawals or additions, an interest rate of 3%, and current long-term care monthly deductions.

**What happens to my annuity if I never need Long-Term Care benefits?**
